Dear mr. Sharon,

I would like to thank s.f.y Safety Company for the warm and courteous service we receive from you.

The project to build the hotel and our opening is complex, and we must meet the goals despite the difficulties and challenges that stand in our way.

The professional advice and direction we receive help our peace of mind and this is admirable.

The staff of the firm provides dedicated service, with a lot of patience and expertise in the field of fire safety and planning and construction law.

We warmly recommend S.f.y Safety and hope that our cooperation will continue in the future.

Thanks for everything,

Beatriz Leon.
